

CARBON REDUCTION PLAN GUIDANCE

Supplier name: Aptvision Limited

Publication date: 10 October 2023

Commitment to achieving Net Zero

Aptvision Limited is committed to achieving Net Zero emissions as close as possible currently.

Aptvision Limited can demonstrate Net Zero emissions by the following factors:

- Using cloud solutions for our databases
- Not owning any physical servers
- Offering solutions to our customers that are cloud based as an alternative to physical server base
- Offering fully paperless solutions of our system so that carbon footprint is also reduced for our Clients
- Having all internal documentation on the cloud drive folders and using e-documentation and reducing any printing to minimum
- Having an office in office complex promoting 'Green Offices' using solar panels as a primary source for energy and office heating
- Organising meetings with clients online if possible reducing the need to fly and long distance travels

There are no other factors that could be considered to generate carbon footprint in Aptvision Limited that could be further improved.

Signed on behalf of the Supplier: Marek Wierzbicki, CEO
